

Exploring the spiritual in music

Interdisciplinary dialogues in music, wellbeing and education

9-10 December 2017, London, UK

The 4th Nordoff Robbins *Plus* Research Conference
The 4th International Spirituality and Music Education (SAME) Conference

This joint conference is a collaboration between
Nordoff Robbins and Spirituality and Music Education (SAME).

The **Nordoff Robbins *Plus* research conference series** aims to provide forums for multi-disciplinary and cross-institutional thinking. It brings together leading researchers and practitioners in conversations that question assumptions, and explore theories and approaches in and around music therapy.

As an international network of music practitioners, researchers and scholars, **SAME** has been set up in response to the growing interest in the area of spirituality in music education and related music practices. It seeks to establish a forum within which the interrelationships of music and spirituality can be explored and developed on a practical, theoretical and research level.

Conference venue:

**Nordoff Robbins Music Therapy Centre
2 Lissenden Gardens, London NW5 1PQ**
